Additional comments

13. What is the major strength of this project?

10 responses

The materials for the workshops were prepared excellent. The activities for students were very interesting and challenging .

The organisation by Portuguese team

Motivating and involving young learners in digital learning scenarios.

Communication

The real use of technology and the collaborative techniques.

Learning new teaching methods that will inspire the students. Learning how to present content in a different way

Students learn to work with new methods but also have to take into account the opinion of other students.

a very big variety of interesting and suitable tools and applications in very different teaching contexts

Collaboration between pairs

Activities, materials used, use of technology, interesting tools.

14. What is the major weakness of this project?

10 responses

Too long day for students at school.

Nothing

-

The short duration of the program

I can't find any.

For the teachers: Not everybody is that interested in the methods offered

For the students: They need a high level of knowledge of English

The programme itself was very good, interesting but overloaded.

lack of English knowledge with some students

Only a few students can participate in the meetings

nothing

15. What is the most positive aspect of the project?

10 responses

The students had a possibility to improve their IT skills as well as communication skills and English speaking skills.

The organisation by Portuguese team and the fact that all the participants have a positive energy

Learning about smart learning tools.

Cooperation and knowledge

The collaborative feeling among the teachers involved in the project.

- Seeing that the student can work together in groups and get really great results without teachers having to "hold their hands" the whole time.

- Getting to know other teachers from other countries and learn how they work and learn about the problems and solutions they encounter.

3D printing

It gives students the feeling they can achieve something special with students they haven't seen before.

working together in international groups, so that you can feel, what Europe or being a European citizen means.

European cooperations across education improvement

students improve english and digital skills

16. What would you like to include in the next meeting?

9 responses

More cultural points including MT (it was a great practice)

-

More programmed free time!

More activities related to the knowledge of the host country.

More involvement of the teachers during the week. This time we were mostly spectators. I would like to learn more of the methods myself.

An extra excursion to get to see more of the culture of the city

working until 5 pm is too long; some more time for cultural activities, sightseeing, social events would be very profitable

More cultural activities

more cultural activities

17. Is there anything else you would like to tell us?

7 responses

Yes . Thank you :)

-

The hospitality was great, having as a result bringing students and teachers closer, exchanging opinions, learn about others culture and become friends.

No.

The future classroom was an eye-opener and very inspirational.

Perfect organization

You did it all very well. The preparation, the tasks, the surrounding, the atmosphere, the organization, everything was perfect. We had the chance to make a lot of experiences concerning the topic of our work on the one hand and concerning social and cultural themes as well.
